AIAG CR Strategy

Strategies *(How)*

- Promote and provide direction to align the industry with the Automotive Industry Guiding Principles & Practical Guidance documents.
- Engage with the mobility supply chain to align objectives, standardize solutions and activities to reduce complexity.
 - Proactively identify/prioritize issues, address gaps and training
 - Identify, develop and/or strengthen partnerships

Vision

- Advance Mobility, striving to make the Automotive Industry an Environmental, Social, and Governance (ESG) leader

Mission

- Align our ESG Core values with those in the Guiding Principles.
- Engage our supply chain, cascading these principles throughout industry.

Corporate Responsibility Steering Committee

Deliverables:

- Strategy & Metrics
- Align objectives, standardize solutions
- Engagement of Work/Advisory/OEM groups

Participating OEMs & Tiers:

- Ford
- GM
- Honda
- Stellantis
- Toyota
- Aludyne
- Aptiv
- Continental
- Cummins
- Dana
- Goodyear

Guided by our Vision to Advance Mobility, striving to make the Automotive Industry an Environmental, Social, and Governance (ESG) leader. aligning our ESG Core values with those in the Guiding Principles and engaging our supply chain, cascading these principles throughout industry.

OEM Industry Alignment

Deliverables:

- Automotive Industry Guiding Principles
- Automotive Sustainability Practical Guidance

Participating OEMs:

- Ford
- GM
- Honda
- Nissan
- Stellantis
- Toyota

Partnering Organization

- Drive Sustainability

Efforts to standardize OEM activities, thus reducing complexity on the supply chain in areas of business ethics, working conditions, human rights, health and safety, environmental leadership and supply chain due diligence for suppliers and all tiers

Responsible Materials

Deliverables:

- **SET Team:** Outreach to smelters/refiners
- **Global Requirements and Raw Materials Sourcing:** Monitors global factors impacting reporting requirements
- **Supplier Communication:** Tools, resources & trainings

Participating OEMs & Tiers:

- Ford
- GM
- Honda
- Stellantis
- Toyota
- AAM
- Aptiv
- Bosch
- Caridington Yutaka
- Cummins
- ITW

Partnering Organizations/Alliances:

- Responsible Minerals Initiative
- Copper Mark
- ResponsibleSteel
- OECD

Group is focusing on the responsible sourcing of materials beyond conflict minerals. By taking action and sharing lessons learned, we can help the entire industry meet these responsibilities effectively and efficiently..

Forced Labor / Human Rights

Deliverables:

- Legislative Awareness
- Supplier Engagement
- Common Reporting Tool Criteria

Participating OEMs & Tiers:

- Ford
- GM
- Honda
- Lucid Motors
- Nissan
- Stellantis
- Toyota
- Volvo Truck
- 15 Tiers

Group addressing forced labor compliance risks in their supply chain with tools and resources, eLearning and training, webinars and events, legal awareness resources, and more.

Environmental Sustainability

Deliverables:

- **GHG:** Awareness and training around GHG emissions and reduction strategies. Aligning globally to add product carbon footprint (PCF) into IMDS.
- **Water Security:** Industry survey & benchmarking project on water operations
- **Waste Management:** Best practice & benchmarking on waste streams that's hard to recycle.

Participating OEMs & Tiers:

- Ford
- GM
- Aptiv
- Continental
- Cummins
- Denso
- Faurecia
- Hino Motors

Partnering Organizations:

- EPA SmartWay
- IMDS Steering Committee

Automotive manufacturers and suppliers are collaborating in efforts to improve the environmental performance of their organizations by focusing on GHG emissions/reductions, water security, and waste minimization.

Global Chemical Management

Deliverables:

- **REC & DOC:** Enhancement proposals and testing of IMDS
- **IMDS Planning:** IMDS Event & Trainings
- **Supplier Alliance (SUAL):** Global supplier discussions and alignment around IMDS
- **Electroplating:** Removal of hexavalent chrome and PFAS in the electroplating process

Participating OEMs & Tiers:

- Ford
- GM
- Honda
- Jaguar
- Stellantis
- Toyota
- VW
- Volvo
- 19 Tiers

Partnering Organizations:

- ACEA/CLEPA
- JAMA/JAPIA
- IMDS Steering Committee
- IPC
- AEM
- NASF
- ACC
- AAI/USCAR

The Chemical Management group focuses on keeping the automotive industry abreast of existing and emerging global regulations and provides an assessment of their impact.
